IBIX® PORTABLE UNIT 40 H²O

IBIX® 40 portable Eco-Blaster is fully made of extruded aluminum, easy to transport thanks to its wheels, light-weight and easy to use. This machine allows large diameter nozzles up to 1/4" (6.5 mm) to be used and increases productivity. It also features a larger tank for greater autonomy. Recommended for the cleaning of medium-large surface areas.

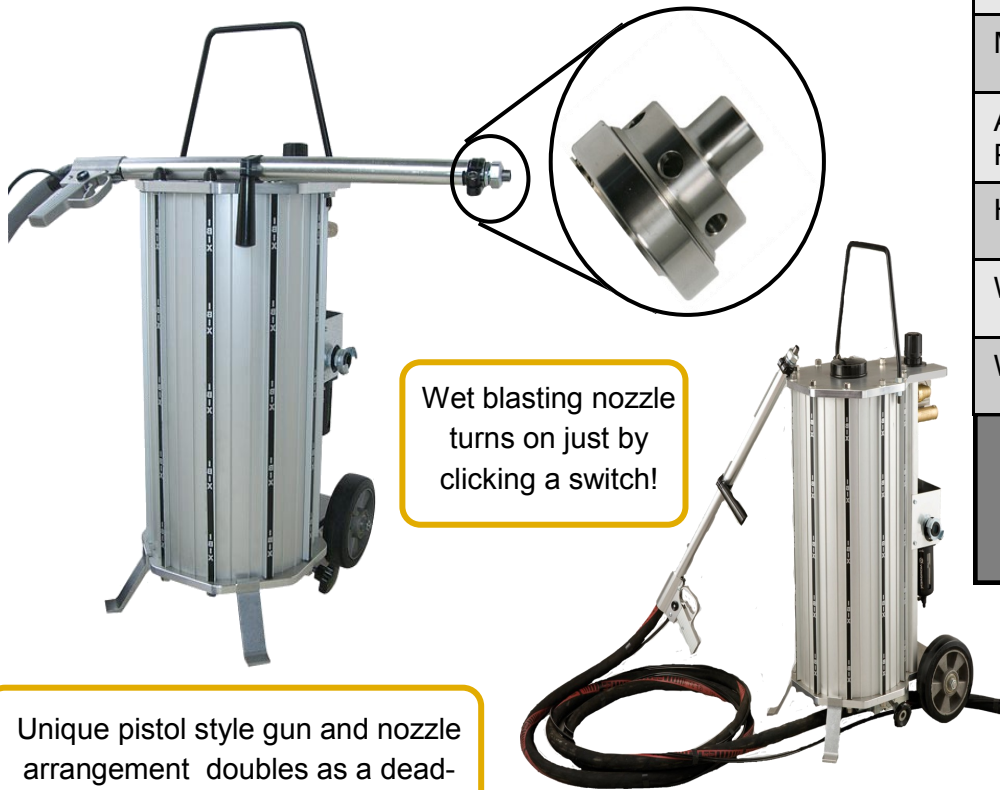

The Dual Wet/Dry Unit is equipped with a wet-blast nozzle and water connection. Remove the wet blast nozzle and use as a standard dry blast system!

Technical Data

Tank Capacity	120-150 lbs
Airflow Rate Min.	180 cfm
Max. Grain size	2.5 mm
Adjustable Pressure	29 psi to 135 psi
Height	37"
Width	17"
